

SPECIAL EFFECTS PROJECTOR

WITH 34" DISK DRIVE

10" X 10" ARTWORK SIZE

The traditional "10 x 10" horizontal artwork projector, used for projected effects in themed environments since the beginning. Popular with artists and producers because large 10" square artwork can be mocked-up right on the projector, with real time results. Also, this large format size (100 square inches) spreads the heat out for longer artwork life without fading.

For animated or static projections on screens, scrim, scenery, drops, cycloramas, smoke, steam, floors, ceilings, and stage walls.

20,000 light years from home stars, planets, and nebulae appear in dazzling brightness as comets streak past and asteroids tumble by. Or, 20,000 leagues below, schools of fish swim past erupting volcanic vents as bubbles rise towards the surface. A sunset develops and unfolds. Clouds slowly scud across the face of a mysterious moon. Ghosts rise into thin air from the graveyard or witch's cauldron. Much more is possible than just the traditional rain, clouds and fire. Images are limited only by your imagination.

For theme parks, museums, zoos, aquariums, science centers, galleries, visitor centers, exhibits, expos, restaurants, themed retail, promotional projects, attractions - any themed environment where projected effects help deliver the message or tell the story.

SPECIFICATIONS

MODEL: P-10-575 10 X 10 SPECIAL EFFECTS PROJECTOR

FEATURES AND BENEFITS

Center driven disk drive included for a 34" disk. (Disk type specified separately)
Light trap & dust cover
Large horizontal artwork surface area for easy prototyping and heat dissipation.
Limitless combinations of artwork accessories for dynamic animation of artwork.
Easy lamp change and maintenance without disturbing artwork focus or set-up.
Heavy duty construction for continuous long life use.

LAMP

Metal halide, 575 watt, 2000 hour rated life

POWER

117 VAC 50/60Hz

760 watts for standard configuration, more for additional accessories, as required.

DIMENSIONS

With cover: L 44" x W 36" x H 36"
